I am a proud mom of two teenagers. My family is important to me, as growing up, my parents nurtured a loving and positive example for my two sisters and I to follow. Children were always in our home, and babysitting as a teenager, every weekend was both a fun and great learning experience for me.

Currently, I am working on an English degree at the University of North Texas, and graduating this December.

I have a passion for both writing and teaching, thus at a young age I knew I wanted to be a teacher when I grew up!

Upon completion of my studies, I will teach English composition and writing skills at a junior college.

I am a positive person to be around and consistently want to encourage others. Those who know me know that I have a passion for children-their sweet laughter and smiles brighten my days. I enjoy so many child activities such as: coloring, many of the classic board games, playing dress up, and more! I look forward to having a bunch of fun with your child/children!

Qualifications

Most importantly, being a mom of two provides me with valuable experience to be a part of your child's life.

Babysitting as a teenager, I have always exhibited nurturing care, extending genuine love and patience.

I was able to work with elementary children with autism for four years. While there, I assisted in teaching the PECS system, so that all non-verbal students would be able to

learn how to communicate their needs and desires through pictures. I worked with life skills, fine motor skills, and more. It was a positive learning experience for me, greatly impacting my life.
