

Texas Wesleyan University

Michelle L.

March 29, 2007

Special points of interest:

- I enjoy being around kids. I feel that not only do they learn from me, but I also can learn from them.
- I enjoy being creative, like coloring, drawing, and making things.
- I love playing soccer and just running around.

Experience

1) My eighth grade year, I was a student aide for my middle school's special needs class. February- May 2002

2) I had to watch my neighbors' 3 children in June while the mom went to school and the dad was out of town.

3) My senior year of high school, I took an honors program that allowed me to be a teacher at our local childcare facility. I was put into classrooms with children ranging from newborn to the age of five. October 2005- May 2006

About me

Hello, my name is Michelle Lopez and I am 18 years old. I have a 14-year-old brother and a 9-year-old sister who are my life. I would do anything for them. I am currently in my second semester at Texas Wesleyan University where I am majoring in Early Childhood Education. I speak a decent amount of Spanish for many people in

I have decided to minor in Spanish, since that is a primary language for many individuals in Texas. School is very important to me. Everyday I am using the knowledge I have gained from all of my child development courses I have taken to help those in need.

I am very active and very unique. I enjoy going outside and just running around. While many teens my age are deciding what to wear the next day, I am outside playing a game of kickball.

Qualifications

I am CPR and first aid certified. I also speak a decent amount of Spanish. I am always up to learning more.

In high school, I took several child development courses. Some of those courses were *Personal and Family Development* and *Child Development*.

I have babysat for many families, including my very own. I have watched my brother and sitter every summer since I was 14.
